When we learned in July that all four of our nominees for the second annual John Deere Technician Awards had been chosen as Regional Finalists (out of 102 nominations, over 8 categories, across Australia and New Zealand) we were thrilled for them - as individuals, but also proud to have Greg Bishop (Mosgiel), Megan Tree (Gore), Megan Foster (Mosgiel) and Logan Robertson (Invercargill) travel to John Deere headquarters in Crestmead, Brisbane and represent Southland and Otago Farm Machinery.

"Having great staff that quietly go about their work being able to step up and represent the company internationally is just outstanding" said Southland Farm Machinery General Manager, Stacey Hitchens.

There were certainly a few nerves among the team as they headed to hands on testing at Crestmead - there were no hints from John Deere on what they would be tested on or what the judges were looking for. They were going in with nothing but the skills they had developed during their careers (and their sparkling personalities!).

The nerves went to the next level when everyone gathered together at 'The W' in Brisbane for a Gala Awards night where the winners of each category would be named.

Then one by one as their categories rolled round we added another winner to our tally, until we had taken out all 3 of the categories we were represented in!

"This year's winners all share extensive technical expertise and a true passion for their work, which made them standouts to our panel of judges," said John Deere Australia and New Zealand Managing Director, Luke Chandler.

A lot of 'WOW's' and an immense sense of pride has rippled throughout the company since they arrived home. Proud almost seems like an understatement, and next year there might be a bit more internal competition for a chance to be nominated!

They are a very humble crew of winners – you won't find their awards displayed publicly, but they are very proud of their achievements. So the next time you happen to spot one of them, feel free to offer them your congratulations, they will (quietly) appreciate it.

WHAT A TEAM WE HAVE!

Hello again to all of our customers and friends out there in Southland and Otago, isn't it great to see a patch of fine weather after all the bad weather barrages the whole of NZ has been experiencing.

Spring is upon us, so if you have started calving or lambing or are yet to start - good luck for this upcoming season. As always if there is anything we can help with in the way of tractors and machinery, service, parts or even just a good old yarn, come in and see us or give us a call.

As you would've seen, I was bumped off the front page for this edition and rightly so. Myself, Murray and the whole team at Southland and Otago Farm Machinery couldn't be prouder of the achievements of our 4 regional finalists, who represented our company proudly at John Deere Limited head office in Crestmead Australia. I was fortunate enough to travel to Australia for the Awards Gala and see us take out all 3 categories we had regional finalists in. A very proud moment as GM of this great company, and a very good night for Southland and Otago Farm Machinery! It's great seeing the hard work and dedication of our amazing staff paying off - well done guys and girls.

Special mention must go to our amazing brand partners John Deere, the tech awards event was a credit to the John Deere brand and their employees, and we are pleased to be part of the Deere family.

The awards has highlighted how we like to invest in the growth and training of our staff - they are our biggest asset, and if you're ever looking for an opportunity to join us, please get in touch and have a yarn - you never know when an opportunity will arise

As we come into spring and everyone gets very busy again, why not utilise our service due alert notifications (if your tractor

already has the capability). Rather than you having to remember to get in touch with us, we will ring you and organise with you to get your tractor serviced. Give us a call if you would like to have a chat about how technology can help you in your farm or contracting operations.

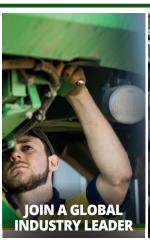

This Spring and Summer will also be our first season selling and supporting the great Krone products in our 2 Southland branches. We have plenty of products arriving and plenty of parts on hand to keep your machines going.

Enough from me, enjoy this month's Tractor Times.

StaceyHitchens

Stacey Hitchens, General Manager

The Southland Farm Machinery Invercargill team are looking for someone with mechanical experience to join their locally owned and operated Dealership. If you want to gain hands on experience to grow your skills working on some of the most advanced machines in the world, in a supportive team environment where you are valued **WE'D LOVE TO HEAR FROM YOU!**

YOUR TURN TO BE A MANAGEMENT OF THE PROPERTY O

TO **CELEBRATE** OUR RECENT SUCCESS AT THE 2022 JOHN DEERE TECHNICIAN AWARDS - WE WANT YOU TO BE A WINNER TOO!

A NATURAL PARTNERSHIP

Stags and Deere - it just works right?! We are pleased to be backing the Southland Stags for their 2022 campaign (and not just because of all the plays on words you can create with Stags & Deer!). With a squad highlighting the local talent we have available, this aligns nicely with locals supporting locals.

Make sure you get along to support them if the opportunity arises. Antlers Up!

DRESSED UP AND READY TO GO

Ever since our Southland branches (Invercargill and Gore) took over the Krone dealership we have been looking forward to seeing sights like these.

This brand new John Deere 6155M is headed out to it's new owner fully equipped with a Krone EasyCut F320M Push Mower and a Krone EasyCut R360 Mower.

With spring upon us, this is just the first of many we will see leaving our dealerships with this great combo.

Our parts departments are also well stocked, and our servicing team is up to speed so we can keep your operation running as smoothly as possible during busy times.

NEVER TOO YOUNG

The Gore Playcentre recently enjoyed a guided tour of our Gore branch, showing that you're never too young to start your love of green and gold.

BETTER WORK VIEWS

Not many woolsheds have a view like this one! Bruce from our Cromwell team delivered Lake Hawea Stations new John Deere 6155M to Jack Mansfield (left), and Tony Barrett (right) and managed to grab a couple of pics before it was put straight to work in what must be one of the most beautiful backgrounds around.

A JOHN DEERE CONNECTED WORKSHOP

Being a John Deere Dealership provides us with opportunities to upskill in many areas of the business through John Deere led Dealer Development programs.

Recently we undertook a 'Connected Support' workshop as part of a development program. The focus of this was to ensure we were successfully using the John Deere tools to their full advantage, and consistently across all of the branches.

Some of the outcomes they achieved during the day was a better understanding across the group of when was the best time to use these tools to achieve the best outcomes.

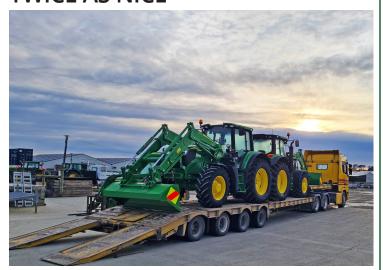

It was great to be able to get all of the Service Managers from across the group in one room at one time plus the staff who support them in the background.

"Ultimately it is the customer who benefits" said Mosgiel Service Manager, Sean Denston.

"Although this can make diagnostics simpler for us, it's the time it saves the customer on tracing the issue, and then getting parts and having to travel back to the tractor, this can add up" he said.

If you're still figuring out how all of this works (or are interested in learning more), our service team are happy to have a chat anytime with you around the John Deere Connected Support tools.

TWICE AS NICE

You're not seeing double, that is 2 John Deere 6140M's all loaded up ready for delivery to their new home.

SHOWING OUR SUPPORT

Blue Mountain College Touring Party use these Prattley mobile yards to fundraise for a cultural and sporting experience tour to Australia every 3 years, this is open to years 10-13.

In addition to the tailing gang they also dabble in firewood and have a catering gig.

Stretch and the Gore team supplied some Prattley gates to go with the mobile yards, and now we get to have our support shown all around the tour aswell. Good luck with the season!

SOUTHLAND HUG A RIG DAY

How could we not get behind a day designed to be "a fun filled day out for people of all ages with special needs, or complicated life long medical conditions". Awesome to see everyone out and having a great time with all of the different machinery!

Big thanks to Andy from our Gore branch for giving up his time, and to Mark and Jason at Waipounamu Contracting for the use of their John Deere 9420R, and Koi Contracting for the John Deere 8365R.
